Backend: PHP, Laravel, Node.js, MySQL, RESTful APIs, Stripe, PayPal, authentication, scalable data models

Frontend & Mobile: JavaScript ES6+, React, Redux, React Native, HTML5, CSS3, responsive UX, Android/iOS deployment

Cloud / DevOps: AWS EC2, S3, RDS, Docker, Git, GitHub, GitLab, Jenkins, GitLab CI, Postman, Linux/Ubuntu

Product Domains: Classifieds, marketplaces, HRMS, payroll, healthcare, e-commerce, analytics dashboards, CMS platforms

Professional Experience

Development Team Lead - EzeAD Media Group Inc.

Bahawalpur, Pakistan | June 2025 - Present

- Lead a 15+ member cross-functional team across backend, frontend, mobile, QA, SEO, content, and design, owning architecture direction, code review standards, agile execution, and multi-platform delivery.
- Spearhead internal engineering systems and best practices, including a company-wide HRMS platform that streamlines HR workflows, onboarding, employee records, and operational data management.
- Drive product improvements using AI-enabled fraud detection and content optimization capabilities, strengthening marketplace trust, listing quality, and platform safety.
- **Impact:** Led delivery of a React Native mobile marketplace app for EzeAD's global classifieds platform, enabling secure buying and selling across 100+ cities and reaching 10,000+ users within 6 months with a 4.8-star average rating.

Full Stack Developer - Laravel & React Native - MyTechPal

London, UK | Feb 2022 - Present | Remote

- Build and maintain full-stack web and mobile applications for international clients using Laravel APIs, React web frontends, and React Native mobile apps.
- Partner with UK-based stakeholders and distributed teams to define requirements, plan sprints, estimate work, and deliver production-ready features under Agile workflows.
- Improve release reliability through Docker-based environments, automated testing practices, CI/CD pipelines, and structured deployment workflows.
- **Impact:** Delivered a Laravel-based HR and Payroll Management System for 500+ employees across 3 countries, automating payroll workflows, reducing processing time by 40%, and eliminating recurring manual data errors.

Senior Web & Mobile App Developer - Pixart Pte. Ltd.

Singapore | Jan 2023 - Jun 2025

- Delivered complex web applications and mobile app features for clients in Asia and the UK using Laravel/PHP, React, JavaScript, and responsive front-end engineering practices.
- Translated creative and business concepts into performant, responsive interfaces while collaborating closely with design, content, and client teams.
- Integrated Stripe, PayPal, and other third-party services into e-commerce and corporate platforms, enabling secure transactions and expanded digital operations.
- **Impact:** Engineered a multi-tenant Laravel e-commerce platform supporting 50,000+ monthly visitors and 5,000+ products, with custom CMS and inventory capabilities that increased online sales by 30% within a year.

Full Stack Web Developer - Syntax Software House

Bahawalpur, Pakistan | Mar 2021 - Jan 2023

- Built full-stack applications for local and international clients using Laravel backend systems and React-based interactive frontends.
- Contributed across the complete project lifecycle: discovery, requirements, technical design, implementation, testing, deployment, and Agile/Scrum delivery.
- **Impact:** Developed a React Native healthcare appointment and telemedicine app that achieved 5,000+ downloads, a 4.5-star rating, and reduced appointment scheduling time by 60%.

Data Analyst - Service Sales Corporation (Pvt.) Ltd.

Bahawalpur, Pakistan | Feb 2017 - Apr 2021

- Analyzed retail sales and inventory data from 200+ store locations to generate insights for assortment planning, pricing, replenishment, and supply chain efficiency.
- Created dashboards and automated reports that improved executive decision-making, sales forecasting accuracy, and inventory cost control.
- **Impact:** Built a React Native mobile analytics app for regional managers to monitor live store performance, cutting manual reporting time by 50% and enabling faster decisions.

PHP Web Developer - Laravel - The Art Valley

Lahore, Pakistan | Mar 2017 - Feb 2021

- Developed and maintained content-rich websites, custom applications, and Laravel/MySQL backend systems for a creative agency environment.
- Collaborated with designers and artists to deliver pixel-aligned responsive interfaces and content management capabilities for non-technical users.
- **Impact:** Created an online art marketplace with secure payments, user accounts, and artist showcases, helping expand the platform community to 1,000+ artists and buyers.

Web Developer - Micro Techsoft

Bahawalpur, Pakistan | Apr 2016 - Mar 2017

- Built and tested websites and web applications for small business clients using PHP/Laravel and JavaScript while tailoring delivery to client requirements and tight deadlines.
- **Impact:** Developed a React Native event management app used across 50+ events for digital invitations, attendee check-ins, and feedback collection.

Web Developer - BAM Techsoft

Bahawalpur, Pakistan | Feb 2015 - Apr 2016

- Supported web application development in a startup team, gaining hands-on experience in PHP/Laravel, database design, and front-end scripting.
- **Impact:** Co-developed a Laravel CRM for a retail client that organized customer data and automated follow-ups, contributing to a 25% improvement in customer retention.

Education

Master of Computer Science (MCS) - The Islamia University of Bahawalpur | 2013 - 2015

Coursework included software engineering, algorithms, databases, and project management.

Tools, Languages & Professional Development

Tools: Visual Studio Code, Android Studio, Xcode, Postman, Jira, Trello, Slack, GitHub, GitLab, Jenkins, Docker, Linux/Ubuntu, MQTT, JSON/XML, Bootstrap

Languages: English - Full Professional Proficiency | Urdu - Native/Bilingual Proficiency

Continuous Learning: Active open-source contributor, Laravel package author for exception alerts, developer community participant, and mentor focused on cloud architecture, AI/ML integration, clean code, and system design.
